ISMAIL MAINAL

Full Stack Developer

+91 7899120229 | ismailmanyal3@gmail.com | LinkedIn | GitHub | Portfolio | Bengaluru, Karnataka, India

PROFESSIONAL SUMMARY

Full Stack Developer with 1+ year of professional experience building, deploying, and maintaining production-grade web applications using React.js, Node.js, Express.js, JavaScript (ES6+), MySQL, and REST APIs. Currently working as Full Stack Developer at Aanirids Technologies Private Limited, Bengaluru — contributing to a live production ERP platform serving real business operations. Experienced in component-based frontend architecture, RESTful API design, JWT authentication, database optimization, and Agile delivery. Strong communicator and collaborative team player — ready to contribute from day one.

TECHNICAL SKILLS

Frontend	React.js, JavaScript (ES6+), Tailwind CSS, React Hooks, Context API, Responsive Web Design
Backend	Node.js, Express.js, REST API Design, JWT Authentication, MVC Architecture, RBAC, Async/Await
Database	MySQL, SQL, Query Optimization, Schema Design, CRUD Operations, JDBC
Languages	JavaScript (ES6+), Java, SQL, Apex
Tools	Git, GitHub, Postman, VS Code, npm, Agile/Scrum, Code Review, Debugging

WORK EXPERIENCE

Full Stack Developer Jan 2026 – Present

Aanirids Technologies Private Limited — Bengaluru, India

- Developing and maintaining full stack modules for a live production **ERP System** — built with React.js, Node.js, Express.js, and MySQL, focusing on performance, scalability, and clean maintainable code.
- Designed and built 15+ RESTful API endpoints with Express.js, real-time data synchronization, and structured error handling — reducing integration issues and improving system reliability.
- Built responsive React.js SPA modules using Hooks, Context API, and Tailwind CSS — enabling real-time dashboard updates and improving user task efficiency by 40%.
- Implemented JWT authentication, RBAC, and MySQL query optimization through indexing — improving API response time by 35% and reducing critical errors by 50% in production.
- Identified and resolved performance bottlenecks across frontend and backend — reduced React re-renders through memoization and optimized MySQL query execution time by 45%.
- Wrote reusable React component libraries and API service modules — reducing development time for new features across the team.
- Participated in Agile sprints, code reviews, and production deployments — consistently delivered features on schedule collaborating with QA and DevOps teams.

PROJECTS

Pet Shop Management System [GitHub]

React.js · Node.js · Express.js · MySQL · REST APIs · Tailwind CSS

- Full stack web app for pet shop operations — listings, inventory, customer profiles, and orders with REST API backend and React.js SPA frontend.
- Built 10+ Express.js CRUD endpoints, normalized MySQL schema, and responsive Tailwind CSS UI with input validation.

Bank Management System [GitHub]

Java · MySQL · JDBC · OOP · Exception Handling

- Secure banking app with Registration, Login, Money Transfer, and Balance Enquiry using Java, MySQL, JDBC, and OOP patterns.
- Applied JDBC transaction management, input validation, and exception handling for secure and reliable data operations.

Recruitment Management App [GitHub]

JavaScript ES6+ · REST APIs · Async/Await · Component Architecture

- End-to-end recruitment pipeline — job postings, candidate tracking, and review dashboards with REST API integration.
- Automated hiring workflows using async/await API calls — reduced manual HR effort by 30% and improved pipeline visibility.

Food Order Website [GitHub]

Java · MySQL · JDBC · CRUD Operations

- Web app with user authentication, product browsing, and food ordering using MySQL and JDBC database integration.
- Implemented session management, input validation, and error handling for secure and reliable user transaction flows.

EDUCATION

B.Tech — Computer Science & Engineering

Coorg Institute of Technology (VTU) | Dec 2020 – May 2024
