ISMAIL MAINAL

Full Stack Developer

+91 7899120229 | ismailmanyal3@gmail.com | LinkedIn | GitHub | Portfolio | Bengaluru, Karnataka, India

PROFESSIONAL SUMMARY

Full Stack Developer with 1+ year of hands-on experience designing, developing, and deploying scalable, production-grade ERP and financial compliance platforms. Proficient across the full stack using TypeScript, React.js, Next.js, Node.js, Express.js, MySQL, Prisma, and Tailwind CSS. Experienced in building mission-critical backend systems — including transactional two-phase credit ledgers with pessimistic locking, hardware-fingerprinted licensing engines, and government GSP integrations (IRN/E-Way Bills). Demonstrated expertise in HMAC + JWT security, RBAC, Redis queuing, GitHub Actions CI/CD, and Nginx production deployments, with a proven track record of delivering high-reliability enterprise software on time.

TECHNICAL SKILLS

Frontend	React.js, Next.js, HTML5, CSS3, Tailwind CSS, React Hooks, Context API, State Management, Responsive Web Design
Backend	Node.js, Express.js, RESTful API Design, Prisma ORM, MVC Architecture, JWT, HMAC & API Key Authentication, Role-Based Access Control (RBAC), Redis Queues
Databases	MySQL, Schema Design & Normalization, Indexing, Query Optimization, Transactions & Pessimistic Locking
Languages	TypeScript, JavaScript (ES6+), Java, SQL
DevOps & Tools	Git, GitHub, GitHub Actions (CI/CD), Nginx, Postman, Production Debugging, Code Review, Agile/Scrum
Integrations	GSP / NIC APIs (GST E-Invoice IRN, E-Way Bill), Razorpay (Payments & Subscriptions), Nodemailer
System Design	Multi-Tenancy, Scalability, Caching, Load Balancing, Rate Limiting, API Versioning, Microservices

WORK EXPERIENCE

Full Stack Developer
Jan 2026 – Present

Aanirids Technologies Private Limited — Bengaluru, India

Aanibiz ERP

React.js · TypeScript · Node.js · Express.js · MySQL · Tailwind CSS · REST APIs

- Developed and maintained full stack modules for a live production ERP covering invoicing, inventory, stock management, and financial ledger workflows, delivered through Agile sprints, code reviews, and production deployments.
- Designed and built 15+ RESTful API endpoints in Express.js with structured error handling, JWT authentication, and RBAC; optimized MySQL queries with indexing, improving API response time by 35% and reducing critical errors by 50%.
- Built responsive React.js SPA modules with TypeScript, Hooks, Context API, and Tailwind CSS, enabling real-time dashboard updates and improving user task efficiency by 40%.
- Developed an enterprise-grade GST compliance and accounting gateway supporting real-time E-Invoicing (IRN) and E-Way Bill generation.
- Created a secure multi-tenant licensing system using device fingerprinting, RBAC, and Razorpay subscription billing.

Aanibiz Compliance Gateway | Multi-Tenant GST & Licensing Platform

Next.js 16 · React 19 · TypeScript · Prisma · MySQL · Tailwind CSS · Razorpay

- Engineered a secure API gateway integrating government GSP / NIC APIs to automate statutory GST compliance and GSTR reporting for enterprise ERP clients.
- Designed a transactional credit ledger with atomic reservation and rollback, guaranteeing data consistency during external government gateway failures.
- Automated the license lifecycle with scheduled expiry cron jobs, activation tracking, and telemetry from client servers.
- Secured multi-tenant APIs with hashed API keys (test/live environments) and role-based access controls for tenant isolation.

PROJECTS

Pet Shop Management System [GitHub]

React.js · Node.js · Express.js · MySQL · Tailwind CSS · REST APIs

- Built a full stack SPA for pet shop operations (product listings, inventory, customer profiles, and order processing) with a React.js frontend and Express.js REST API backend.
- Implemented JWT authentication, RBAC, a normalized MySQL schema, and 10+ CRUD endpoints with validation and error handling.

Recruitment Management App [GitHub]

React.js · JavaScript (ES6+) · Node.js · REST APIs · MySQL

- Built an end-to-end recruitment platform for job postings, candidate tracking, application management, and review dashboards with REST API integration.
- Created reusable React components with Context API state management, automating hiring workflows and reducing manual effort.

EDUCATION

B.Tech — Computer Science & Engineering
Dec 2020 – May 2024

Coorg Institute of Technology (VTU)
